Monitoring- und Anlaufstelle für  
vorläufig aufgenommene Personen

## **map-F invites you to an information and discussion evening on the 14.11.18 in Zurich!**

On September 2017 the majority of the Voters of the canton Zurich accepted a change in the law concerning the social welfare for people with F permit (in German "Vorläufig Aufgenommene AusländerInnen") which means that they will receive only asylum welfare (Asylfürsorge) instead of social welfare (Sozialhilfe). That means a massive degradation in their life situation. map-F as a monitoring and contact point for affected people, wants to counter this degradation.

### **map-F offers:**

- Documentation of how the municipalities implement the new law and analyses where integration is possible and where it isn't.
- A Contact point for affected people, qualified specialists and the general public.
- Sensitization of society and politics, in order to influence the implementation of the new law with the purpose to support the necessities of the affected people.

Last august map-F published a first report about the new situation under the new law. It is available under [www.map-f.ch](http://www.map-f.ch)

**Are you affected by the new law? Do you know anybody who is affected?  
Are you interested in the work of map-F?**

**Please come by!**

**On the 14. of November 2018 at 19:00 in the autonomous school in Zurich  
at Sihlquai 125 / 8005 Zurich**
