

Contributors wanted for publication «Living with F-Status»!

Do you have an F-permit and would like to share your experience with a wider public?

map-F is looking for individuals with «provisionally admitted foreigners» status who are interested in contributing to a publication project. Contributors describe what holding an F-permit means for them, what their experiences are within Swiss society, and what they would like to change.

Contributors are free to choose the format of their contribution, be it texts, pictures, letters, portraits, photographs, drawings, maps or commentaries.

Contributions can be anonymous, poetic, detailed, philosophical, entertaining or contemplative. map-F aims to provide a platform for affected persons in order to amplify their voices and let their concerns be heard. Presenting these issues from the point of view of affected individuals themselves shall contribute to a wider societal consciousness for the circumstances in which «provisionally admitted foreigners» find themselves in Canton Zurich.

Do you have an F-permit and do you live in Canton Zurich?
